

# SAFETY DATA SHEET

0694-901567 Celltac PT-6 5mL

1st Edition: 04 Aug 2010 2nd Edition: 31 Jan 2017

### Section 1 – Identification of the Substance/Mixture and of the Company/Undertaking

| Product name:                            | Celltac PT-6 5mL                                       |
|--|--|
| Product code:                            | CG-610A  |
| Supplier:                                | Nihon Kohden Corporation                               |
| Address:                                 | 1-31-4 Nishiochiai, Shinjuku-ku, Tokyo 161-8560, Japan |
| Telephone number:                        | +81 3-5996-8036  |
| Fax:                                     | +81 3-5996-8100  |
| Website for contact:                     | http://www.nihonkohden.com/contact/intl.html           |
| Emergency telephone number:              | 1-800-424-9300; CHEMTREC (US)                          |
|  | 613-996-6666; CANUTEC (Canada)                         |
|  | +81 3-5996-8022 (Outside US and Canada)                |
| Recommended use and restrictions on use: | To measure prothrombin time in plasma.                 |

## Section 2 – Hazards Identification

| Hazard identification:                          | This reagent does not contain human derived by-products. But because it contains rabbit derived by-<br>products, handle this reagent as being with a potential risk of infection. |
|---|---|
|   |   |
| Labeling: Symbol:                               | N/A   |
| Signal word:                                    | N/A   |
| Hazard statement:                               | N/A   |
| Precautionary statement                         |   |
| Precautions:                                    | N/A   |
| First-aid measures:                             | N/A   |
| Storage:  | N/A   |
| Disposal:                                       | N/A   |
| Other hazards which do not result in classified | cation:   |
|   | N/A   |
|   |   |

#### Section 3 - Composition/Information on Ingredients

| Substance/mixture:       | Mixture                                 |
|--------------------------|---|
| Product name:            | Celltac PT-6 5mL                        |
| Component                |   |
| Thromboplastin (Rabbit): | 4 mg/mL (concentration at point-of-use) |
| Calcium chloride:        | < 0.5 w/v%                              |
|                          | CAS No. 10043-52-4                      |
|                          | EINECS No. 233-140-8                    |

### Section 4 - First Aid Measures

| Inhalation:                                  | Move to fresh air and keep at rest in a position comfortable for breathing. |
|--|---|
|  | Seek medical attention.   |
| Skin contact:                                | Wash with plenty of water.  |
|  | Take off dirty clothes and shoes when stained to clothes.                   |
|  | Seek medical advice/attention.  |
| Eye contact:                                 | Rinse cautiously with water for several minutes.                            |
|  | Seek medical advice/attention.  |
| Ingestion:                                   | Rinse mouth. Call a POISON CENTER or doctor/physician.                      |
| Most important symptoms/effects, acute and o | delayed   |
| Acute:                                       | N/A   |
| Delayed:                                     | N/A   |

## Section 5 – Fire-fighting Measures

| Suitable extinguishing media:                                 | Use an extinguishing agent suitable for surrounding fires.                   |
|---|--|
| Unsuitable extinguishing media:                               | None are known.  |
| Specific hazards arising from the chemical:                   | N/A  |
| Specific fire fighting methods:                               | None are known.  |
| Special protective equipment and precaution for firefighters: |  |
|   | Wear protective gloves and safety glasses. Avoid contact with eyes and skin. |

## Section 6 - Accidental Release Measures

Personal precautions, protective equipment and emergency procedures:

|  | Keep unnecessary people away; isolate hazard area and deny entry.        |
|--|--|
|  | Vapor protective clothing should be worn for spills and leaks.           |
|  | Avoid skin contact. (Also see Section 8.)                                |
|  | Do not inhale combustion gases.  |
| Environmental precautions:                             | Prevent release to the environment if possible.                          |
| Cleaning and neutralization techniques:                | Wipe up material carefully and place in container suitable for disposal. |
| Methods and materials for containment and cleaning up: |  |
|  | Prevent release to the environment if possible.                          |

## Section 7 – Handling and Storage

| Handling | : Technical measures:            | Use good personal hygiene practices. (See Section 8.)          |
|----------|----------------------------------|--|
|          | Local and general ventilation:   | Use only with adequate ventilation. (See Section 8.)           |
|          | Safe handling advice:            | Do not eat, drink, or smoke during work.                       |
|          |                                  | Avoid inhaling and contacting with eyes.                       |
|          |                                  | Wash hands thoroughly after handling.                          |
|          | Avoidance of contact with incomp | atible materials:  |
|          |                                  | (See Section 10 for Stability and Reactivity.)                 |
| Storage: | Storage conditions:              | Store in a tight container at 2 to 10°C (35.6 to 50°F).        |
|          | Incompatible products:           | (See Section 10 for Stability and Reactivity.)                 |
|          | Packaging materials:             | No regulations about materials. Keep container tightly closed. |
|          |                                  |  |

## Section 8 – Exposure Controls/Personal Protection

| Exposure limits:                  | N/A  |
|-----------------------------------|--|
| Appropriate engineering controls: | There are no special ventilation regulations.                  |
| Personal protective equipment     |  |
| Respiratory protection:           | Use a self-contained respirator, if ventilation is not enough. |
| Hand protection:                  | Wear protective gloves.  |
| Eye protection:                   | Wear safety glasses.   |
| Skin and body protection:         | Wear protective clothing.                                      |
| Hygiene measures:                 | Wash hands thoroughly after handling.                          |

## Section 9 – Physical and Chemical Properties

| Physical state and appearance: | Lyophilized product |
|--------------------------------|---------------------|
| pH:                            | N/A                 |
| Boiling point:                 | N/A                 |
| Melting point:                 | N/A                 |
| Flash point:                   | N/A                 |
| Density:                       | N/A                 |
| Solubility:                    | Soluble in water.   |

## Section 10 – Stability and Reactivity

| Stability:                          | Unstable to heat. |
|-------------------------------------|-------------------|
| Possibility of hazardous reactions: | N/A               |
| Conditions to avoid:                | N/A               |
| Incompatible materials:             | N/A               |
| Hazardous decomposition products:   | N/A               |

## Section 11 - Toxicological Information

| Acute toxicity                     |                             |
|------------------------------------|-----------------------------|
| Acute toxicity (Oral):             | Classification not possible |
| Acute toxicity (Dermal):           | Classification not possible |
| Skin corrosion/irritation:         | Classification not possible |
| Serious eye damage/eye irritation: | Classification not possible |
| Respiratory or skin sensitization  |                             |
| Respiratory sensitization:         | Classification not possible |
| Skin sensitization:                | Classification not possible |
| Germ cell mutagenicity:            | Classification not possible |
| Carcinogenicity:                   | Classification not possible |
| Reproductive toxicity:             | Classification not possible |
| STOST-single exposure:             | Classification not possible |
| STOST-repeated exposure:           | Classification not possible |
| Aspiration hazard:                 | Classification not possible |

### Section 12 – Ecological Information

| Toxicity:                      | Classification not possible |
|--------------------------------|-----------------------------|
| Persistence and degradability: | N/A                         |
| Bioaccumulative potential:     | N/A                         |

#### Section 13 – Disposal Considerations

| Waste of the remainder:           | Dispose of the product according to your local laws and your facility's guidelines for waste disposal. |
|-----------------------------------|--|
| Pollution container and wrapping: | Dispose of the product according to your local laws and your facility's guidelines for waste disposal. |

#### Section 14 – Transport Information

| International regulations:       | N/A |
|----------------------------------|-----|
| Section 15 – Regulatory Informat | n   |
| Product (Mixture):               | N/A |

## Section 16 - Other Information

No data

This data sheet is complete and accurate to the best of our knowledge but all information may not be covered. Any product may contain unknown harmful substances. This product must be handled carefully and used under the responsibility of the user, taking appropriate safety measures.
